

kidsLINK in Brief

kidsLINK provides a broad range of programs and services to help more than 9,000 children, youth and their families facing or at risk of social, emotional and mental health challenges each year. kidsLINK also provides consultation and training for over 2000 professionals who work with children and youth.

Consistent with its commitment to help children and youth achieve their potential, kidsLINK specializes in enabling wellness, building resilience and reducing the impact of emotional trauma.

kidsLINK

Developing tomorrow's potential
in today's children and youth

kidsLINK in Brief

kidsLINK believes that children, youth and their families can make a difference to their own health and happiness. Therefore it helps them make the best choices for their lives.

Making a difference

kidsLINK's expertise is providing services and products that are based on an integration of knowledge and methods that enable wellness and resilience, and reduce the negative impact of trauma.

kidsLINK makes a difference by promoting healing and wellness of children, youth and their families. It is committed to achieving positive outcomes that reflect each individual's unique strengths and circumstances. Its interventions consider all aspects of a young person's life and provide useful and practical assistance for addressing their needs.

With over 150 years of experience and dedication to changing the world through education, kidsLINK shares its wealth of knowledge with multi-disciplinary professionals and professionals in training. By doing so, it is extending its reach to the lives of thousands of children, youth, parents, caregivers and future caregivers.

kidsLINK's purpose

kidsLINK works to improve the lives of children, youth and their families enabling them to achieve their potential and become responsible and contributing members of their community.

kidsLINK's vision

kidsLINK's vision is that **young people choose wellness, are resilient and heal from trauma.**
