5 Tips for Positive Parenting

1. Be Sensitive and Responsive to Your Child’s Communicative Cues.
2. Celebrate Their Strengths and Learning Developments.
4. Check Your Own Responses BEFORE Replying to Their Emotionally Fueled Behaviours.
5. Balance Your Own Needs as a Parent so You Can Better Take Care of Them too.

Hissing Breaths:

Hissing breaths help kids connect with their inner self and relax them physically and mentally. Teach your child to breathe in through the nose. Make them inhale a deep breath, and then ask them to exhale through their mouth, while making a hissing sound like a snake. Prolonging the exhalation will help your child relax and feel better.
